# RECYCLED CRAYON CRAFTS!

Recycle those old, worn-out crayons into beautiful craft decorations! When we recycle, we not only steward the creation well, but we remember how God will make everything new! **Be sure to have an adult help you with shaving the crayons.**

## SUPPLIES NEEDED

- Old Crayons
- A sharp pair of scissors
- Permanent marker
- plate or container for crayon shavings
- 2 sheets of Con-tact adhesive paper (available from the craft or hardware store)

## STEPS

- 1. Draw your design onto the first sheet of con-tact paper,** make sure your design is simple enough to cut out.
- 2. Shave the crayons,** use the blade portion of the scissors, shave away from yourself.
- 3. Peel back the first sheet of con-tact paper,** place the sticky side up!
- 4. Sprinkle on your shavings!** Enjoy, this is the funnest part!
- 5. Peel back the second sheet of con-tact paper and place over the first,** go slow and steady, try to remove as many air-pockets as possible.
- 6. Cut out design!** Consider adding a magnet or ribbon so that you can hang up your craft!
